Jeenit Sharma

Hyderabad, Telangana | 9727548567 | sharmajeenit2000@gmail.com | js313.github.io

Education

Gujarat Technological University — Ahmedabad, Gujarat
Bachelor of Engineering — *Jul. 2017 – Jul. 2021*

Experience

Senior Software Engineer — Oct. 2025 – Present
Cimpress

- Owned multiple CDP/CRM services end-to-end, managing customer data across internal businesses and e-commerce stores; onboarded 4 new businesses.
- Built real-time customer data pipelines handling 6M customers, with 2s latency for creation/modification and up to 10s for associations.
- Integrated Segment, HubSpot, Zendesk, and ETL/reverse-ETL workflows to unify customer journeys, enrich audiences, and synchronize CRM and advertising data.
- Built an AI-powered frontend experience using HubSpot customer context, reducing sales calls by 85% through automated customer query resolution.
- Used AWS, Snowflake, and PostgreSQL for customer-data processing, troubleshooting, and stakeholder analytics; implemented AI-assisted code reviews in CI/CD and remediated Snyk vulnerabilities.

Software Engineer — Oct. 2023 – Oct. 2025
DAZN — *Hyderabad*

- Developed scalable backend services with Node.js, TypeScript, and NestJS, and modern UIs using React.js and Tailwind CSS.
- Designed event-driven AWS applications using ECS, Lambda, S3, and SQS, with Terraform for infrastructure provisioning.
- Migrated monitoring from New Relic to Coralogix for better observability.

Software Engineer — Aug. 2022 – Sep. 2023
WebMob Technologies — *Ahmedabad, Gujarat*

- Migrated a proxy server from Python/Flask to Node.js and developed backend systems automating loan processing for NBFC clients.
- Built an AI-driven quiz platform using OpenAI's Davinci model with NLP and dynamic content generation.

Systems Engineer — Jul. 2021 – Aug. 2022
Tata Consultancy Services — *Ahmedabad, Gujarat*

- Supported application deployments, production troubleshooting, and monitoring of large-scale enterprise systems.

Projects

Pets | *Node.js, Google Maps, AWS S3, SendGrid* — github.com/js313/Pets

- Built a pet adoption platform with location-based search, AWS S3 image storage, and SendGrid communication.

Natours | *Node.js, Stripe* — github.com/js313/natours

- Built a tour booking application with browsing, filtering, booking, and secure Stripe payments.

Technical Skills

Languages: JavaScript, TypeScript, Python, Java, C++
Backend: Node.js, NestJS, Flask, Spring Boot, REST, GraphQL
Data & CRM: Snowflake, PostgreSQL, MySQL, MongoDB, DynamoDB, Segment, HubSpot, Zendesk, ETL, Reverse ETL
Cloud, DevOps & AI: AWS, Lambda, ECS, SQS, S3, Terraform, Docker, CI/CD, Snyk, Agentic Workflows

Achievements

- Solved 800+ LeetCode problems and achieved a 1790 contest rating; contributed to open-source sorting-algorithm visualizations.
- Built a diet-planning app using OpenAI LLMs for personalized meal recommendations in a hackathon.
